

WIRELESS HEADSET

SONETICS® APEX

LEARN MORE

ADVANCED TECHNOLOGY. ENHANCED COMMUNICATION.

Jetstream is energized to have the opportunity to provide a communication solution for all members on your team. Operators today rely on eye-contact and hand signals to communicate when operating large, noisy machinery, including waterblasting systems.

What if you could know word-for-word what the other operator needs in an instant with NO interpretation required? Sonetics developed a headset that provides a piece-of-mind in an instant through actual voice communication, noise reduction, and noise filtration with an industry first in integrated personal sound dosimeter. Built to withstand extreme environments, team wireless systems are dustproof, watertight, and ready to perform in the same tough conditions you face every day.

KEY FEATURES

- **DECT7® WIRELESS** - Secure interference-free communication with excellent range
- **NOISE REDUCTION** - EPA NRR of 20dB in both behind the-head and hard-hat configurations
- **STEREO LISTEN-THROUGH** - Front microphones to provide situational awareness limited to no higher than 82dB
- **PERSONAL SOUND DOSIMETER** - Measures the exposure to sound over time and adjusts headset volume to keep the operator's ears safe
- **AUTO-LEVELING MICROPHONE** - Automatic voice adjustments for exterior noise
- **NOISE SUPPRESSION** - Limits high impulse events from transmission
- **BLUETOOTH INTEGRATION (Optional)** - Communication with cell phones, mp3 players, mobile radios, and computers
- **TWO-WAY RADIO INTEGRATION** - Integration with wired or wireless two-way portable radios
