

WATERBLAST UNIT

X5200 SERIES

The Jetstream® X5200 400 hp (298 kW) diesel or electric waterblast unit offers a host of features to provide contractors with enhanced performance, superior durability, and unsurpassed operating efficiency. Incorporating Jetstream's UNx™ Fluid End technology for ease-of-use and maintenance, the X5200 unit can convert from **6,800 to 40,000 psi (469 to 2,750 bar)** operating pressures in minutes.

KEY FEATURES

- 400 hp (298 kW) high performance engines
- Pilot bearing free PTOs / covered banded beltdrive
- Guardian™ Waterblast Filtration System extends component life and increases uptime with built-in filtration
- Charge pump
- Available as a skid or low profile trailer with balanced weight distribution for stable towing
- State-of-the-art controls
- Electronic throttle control
- Hand-adjustable bypass valve
- Shutdown system to protect both the engine and the pump

UNIT OPTIONS

- Available with John Deere or Cummins 9.0L diesel engines or electric motor
- Lightweight (<10,000 lbs) configuration
- Low profile (82") height
- 6,800 to 40,000 psi conversion kits
- Regulator valve for shut-in applications
- Electric or hydraulic brakes
- Spare tire package
- Workbench and industrial strength vise
- Forklift pads
- Packing lube water recirculation package
- Air compressor package
- Safety package w/fire extinguisher and grounding cable
- Fuel saving Hydro-Throttle
- Special application units
